

```
1  #include <stdio.h>
2
3  int x,y,x1,x2;
4
5  int f(int y) {
6      x1 = 3;
7      return x1+y;
8  }
9
10 int main(int argc,char **argv) {
11     x=6;x2=7;y=f(x2);
12     printf("%d\n",x+y);
13 }
```
